Keep the customers informed

Improve productivity by saying goodbye to unread email campaigns or unnecessary calling. Send timely updates (e.g. linking Aadhaar) to your customers via SMS, the most effective mobile engagement channel with 98% read rates.

Send campaigns your customers love

Go beyond plain bulk SMS. With Textlocal, you can now fully customize your SMS campaigns in minutes using our easy and powerful user interface. Whether it is personalizing millions of bulk SMS, composing regional language texts, or staggering your sends in batches, it is all incredibly easy!

Track your campaign effectiveness

For the first time ever, Textlocal's granular click analytics give you insights into your campaign reach and effectiveness. Along with the right A/B tests, these analytics can now help you compose the right message and send it to the right audience at the right time.

Bank with an SMS

Allow customers to open accounts, add beneficiaries, and more when they text into your SMS long codes and short codes with predefined keywords, or via a simple missed call. Make your processes customer friendly with Textlocal's receive SMS functionality.

Promote new products and services

Promote new products and get clients to sign up for new services with SMS marketing campaigns. Insert a simple web URL link as 'call-to-action', measure client response and fine-tune your campaigns.
